PRESS RELEASE

IDE launches its innovative Hybrid GENAIRCON at DSEi 2017

Koropi, September 20th, 2017: IDE (INTRACOM Defense Electronics) participated in the international exhibition "DSEi 2017", one of the largest exhibitions in Defense & Security area, that took place in London from 12th to 15th September 2017.

IDEôs exhibition stand was visited by the Minister of National Defense, Mr. Panos Kammenos, the Deputy Minister of National Defense, Mr. Dimitris Vitsas, and the General Director of GDDIA, Mr. Kyriakos Kyriakidis. Also, government representatives and military delegations from various countries, as well as defense industry executives, visited IDEôs stand and had the opportunity to be informed about IDEôs innovative products in the field of network-centric electronic defense systems.

In this exhibition, IDE introduced its new innovative Hybrid system GENAIRCON, an integrated hybrid auxiliary electrical power and environmental control system, which is currently integrated into M109 howitzers, as a capability upgrade subsystem. Among various benefits, the GENAIRCON provides the embedded functionality of ñTrue Silent Watchò, considered to be of significant value to forward operating platforms, where the control of thermal and noise trace is of primary importance.
