
PRESS RELEASE

INTRACOM DEFENSE received the **"Research - Innovation and Technological Development" Award** **of the Athens Chamber of Commerce and Industry**

Koropi, June 14th, 2022: INTRACOM DEFENSE (IDE) was honored by the Athens Chamber of Commerce and Industry (ACCI) with the "Research - Innovation and Technological Development Award". The award ceremony took place on June 9th, 2022, at Zappeion Megaron, in the presence of the Prime Minister, Mr. Kyriakos Mitsotakis, Ministers of the Greek Government and representatives of institutions.

Mr. George Troullinos, the CEO of Intracom Defense, received this award from the Greek Minister of Education and Religions, Mrs. Niki Kerameos and the President of ACCI, Mr. Ioannis Bratakos.

Mr. Troullinos, addressing the event attendees, stated:

"Mr. Prime Minister, Mr. Deputy Prime Minister, Ministers, Mr. President of ACCI, ladies and gentlemen, I would like to express my warmest thanks for honouring the, more than 450, employees of Intracom Defense, with this prize award.

IDE produces innovation and technology in Greece and since its establishment, has contributed hundreds of millions of euros to the Gross National Product. We create innovative products, however 95% of the company's turnover is achieved through exports.

Nowdays, Intracom Defense, like the entire Greek Defense Industry sector, is at a critical cross point, as in the frame of the increased national defense expenditures imposed by the geopolitical conditions, the participation of the Greek companies in national armaments programs is particularly significant.

Through our dedication to solid values and commitment to excellence, we intend to continue building on the foundation of quality and innovation, creating not only for the company but also for Greece."

It is worth noting that IDE was evaluated by ACCI for its modern infrastructure, the specialized laboratories and the highly qualified scientific personnel, contributing to the development, production and certification of innovative high quality products.
